

Avian Flu

Julian Langer

2/3/2025

Culling birds
Not changing the culture
Ending the industries
Addressing the conditions
That spread diseases
The fowl plague
Of systematised slaughter
The fowl plague
Of systematised slaughter
Murdering captives
Within agri-industrial machines
Specicidal annihilation
Conserve trade
Kill the birds
The fowl plague
Millions killed
The fowl plague
More culled
The fowl plague
Mass murder
Rationalised under
Rhetoric of preventing death
Conserve industrial farming
Cull the birds
The fowl plague
The fowl plague
The fowl plague
Birds killed
Industries conserved
Absurd politics
As capture and industry

Are the spread of disease
Kill the birds
The fowl plague
Cull the captives
Keep the cages
The fowl plague
Annihilate millions
The captives are at fault
The fowl plague
Avian flu
Keep them captive
The fowl plague
Culled or captured
Killed regardless
Is it the flu that is really fowl here?
Kill the birds
Cull the captives
The fowl plague
The fowl plague
The fowl plague
Conserve the industry
Conserve the trade
Conserve the capture
The fowl plague
The fowl plague
The fowl plague
