Mourning Our Martyrs in Sudan

A Statement from The Anarchist Group in Sudan

Sudanese Anarchists Gathering

October 30 2025

To all revolutionaries of the world, to all liberatory social-ists, to all anarchists:

Today we mourn the martyrdom of our comrades in Al-Fashir who fell defending their city, their families, and themselves. They are:

Faisal Adam Ali
Radwan Abdel Jabbar (“Kahraba”)
Adam Kibir Musa
Abdel Ghaffar Al-Tahir (“Al-Sini”)

We also mourn a number of volunteer youths who were killed by the terrorist Rapid Support Forces militia while their only “crime” was bringing food to the city’s residents.

We, in the Anarchist Group, call on comrades everywhere: the time has come to gather and stand with us against this destructive authoritarian war. We must raise awareness across the world about the mass extermination being carried out by

the Rapid Support Forces militias — supported by the United Arab Emirates — which are turning their guns toward ethnic cleansing and genocide on racial grounds for the sake of vicious imperialist interests seeking to control resources and gold in exchange for blood. The world must not stand by and watch us in silence. Revolutionaries everywhere must know of our sacrifices and our struggle against savage capitalist terror, against the bloody authority, and against systematic ethnic cleansing.

We in the Anarchist Group in Sudan have lost comrades; some of our members were injured and some died; others face the imminent danger of war. Our families suffer from hunger, lack of medicine, and lack of food. We believed in anarchism in a land where authority is everywhere, and we fought to defend ourselves, our idea, and our unity. Today we need you — reach out your hands to us and stand with us so we can resist the authorities and the Janjaweed.

May the revolution endure — a poisoned dagger in the hearts of tyrants.

Ali Abdel Moneim
Spokesperson of the Group
