Guerrilla gardening as ontological anarchist attack  
 against the too fucking late krapitalist death camp  
 Preservationist wildlife defence as positivist action  
 Revolted by annihilation and bored of cliché negativity  
 Rewilding as reweirding  
 No one will make it out of this alive, but fuck it — this

## 1

Voidwork

Drifting through bewildernesses

Purposeful aimless wanderings

Treating Thoreau's affirmation of walking as a declaration of rebellion

## 2

Planting seeds in fertile voids

Seed bombs thrown to destroy mass-extinction culture

Ideas, conversations, pamphlets, art, books and poetry  
as planting psychic seeds for the rewilding of  
minds

Gardens growing out of wreckage and ruination are  
beautiful sights

## 3

On the side of the pests and desiring weediness

While refusing to accept culls

Metaphysical rebellion as refusing to kill for Cause

As Libertad said – revolt is life!

## 4

No designs for feralculture gardens

No desire for the totalitarianism of agriculture

Permaculture and horticulture are fine harm reduction

But do not satisfy desires for the liberation of life potential
